5 ✓ CLAIMS  
6  
7

8 We claim:

9 1. A system for utility clothing comprising:

10 at least one outer garment shell having a front portion with at least one  
11 removable attachment for a pocket disposed thereon; and

12 at least one pocket removably placeable upon each of the at least one  
13 removable attachment point on each of the at least one outer garment shell  
14 such that the pocket is exposed to the wearer of the garment for easy access  
15 during wearing.  
16

17 2. The system of claim 1 wherein at least two different garment shells  
18 are provided each having four removable attachment points thereon, and  
19 pockets placed upon each of the four removable attachment point; one

1 placed on the right upper chest area, one placed in the left upper chest area,  
2 one placed on the right waist area, and one placed on the left waist area.  
3

4 3. The outer utility garment of claim 1 wherein at least one of the  
5 removable pockets has at least one portion of hook and loop material  
6 disposed on it, and the garment has at least one portion of hook and loop  
7 material disposed on it to hold the pocket securely to the garment during  
8 wearing.  
9

10 4. An utility garment comprising:  
11 an outer garment shell having a front portion with at least one  
12 removable attachment for a pocket disposed thereon; and  
13 a pocket removably placed upon each of the at least one removable  
14 attachment point such that the pocket is exposed to the wearer of the  
15 garment for easy access during wearing.  
16

17 5. The outer utility garment of claim 4 wherein the garment shell  
18 having four removable attachment points thereon, and pockets placed upon  
19 each of the four removable attachment point; one placed on the right upper

1 chest area, one placed in the left upper chest area, one placed on the right  
2 waist area, and one placed on the left waist area.

3  
4 6. The outer utility garment of claim 4 wherein at least one of the  
5 removable pockets has at least one portion of hook and loop material  
6 disposed on it, and the garment has at least one portion of hook and loop  
7 material disposed on it to hold the pocket securely to the garment during  
8 wearing.

9  
10 7. The outer utility garment of claim 4 wherein at least one of the  
11 removable pockets has at least one pressure sensitive snap, and the garment  
12 includes at least one pressure sensitive snap disposed to hold the pocket  
13 securely to the garment during wearing.

14  
15 8. The outer utility garment of claim 4 wherein at least one of the  
16 removable pockets includes a buckle assembly and the garment includes a  
17 buckle assembly disposed to hold the pocket securely on the garment during  
18 wearing.

1           9.     The outer utility garment of claim 4 wherein at least one of the  
2     removable pockets may have more than one compartment defined there  
3     within.

4  
5           10.    The outer utility garment of claim 4 wherein at least one of the  
6     removable pockets are disposable after use.

7  
8           11.    The outer utility garment of claim 4 wherein the garment shell is  
9     disposable.

10  
11          12.    The outer utility garment of claim 4 wherein the garment shell is  
12     reusable, after cleaning.

13  
14          13.    The outer utility garment of claim 5 wherein at least one of the  
15     four pockets has at least two compartments.

16  
17          14.    The outer utility garment of claim 4 wherein the at least one  
18     pockets is reusable.

1           15. A pocket for use in an outer utility garment comprising:  
2           a front;  
3           a back attached to the front, with at least one opening;  
4           at least one removable attachment point disposed on the back of the  
5           pocket such that the opening of the pocket is exposed to the wearer of the  
6           garment for easy access during wearing.

7  
8           16. The pocket for use in an outer utility garment of claim 15 wherein  
9           the pocket is attachable to a garment shell having a front portion with at least  
10          one removable attachment for a pocket disposed thereon.

11  
12          17. The pocket for use in a outer utility garment of claim 15 wherein  
13          the pocket is divided into at least two compartments for carrying specialized  
14          items of use.
